

CME 2017 Rate Schedule F

Charles Mix Electric Association., Inc.
Lake Andes, South Dakota 57356

Schedule F

Effective: January 1st, 2017
Rate Codes 11[^], 12, 13[^], & 14
Revenue Code: 6
Type of Service: Single, two or three phase, demand, 60 cycles at available secondary voltages.
Applicability: Applicable to consumers for irrigation, subject to the established rules of the seller. This includes, but is not limited to demand or non-demand metered, single, two and three phase services for irrigation loads.

Annual Service Charge* horsepower x 0.8 x \$15.95

Rate per Month:

Demand Charge per kW (load management)[^].....\$8.80
Demand Charge per kW (non-load management)\$17.70
Energy Charge per kWh: First 150 kWh x kW.....8.3¢
Excess kWh.....5.775¢

*The service charge shall not be billed if the normal operating demand charges are paid for 3 or more months during an irrigation season. When normal operating demand charges are not paid for at least 3 months, then 36% of the total annual use charges shall be applied to the annual service charge.

Billing Demand: Demand will not be charged when use is for moving a pivot for crop planting or harvesting only. Billing demand shall be determined, at the discretion of Charles Mix Electric, by one of the following means:

1. Using a factor of 80% of the name-plate horsepower rating.
2. Using standard demand and energy metering equipment.
3. Using energy meters with associated hour use meters.

[^]Applies only when the service is actively connected to a load management control.

Rate Codes 11 & 12 apply to irrigation systems with a total nameplate horsepower of 15 or less. Billing demand is calculated using method 1 above.

Rate Codes 13 & 14 apply to irrigation systems with total nameplate horsepower greater than 15. Billing demand is calculated using method 2 or 3 above.

Terms of payments, notices and fees shall be covered under Policies 601 – 604.
